Dear Sir:

Please find enclosed a copy of the report of sample analysis of the discharge from the Syntex Agri-Business plant at Verona, Missouri. The sample was collected on March 23, 1978.

You will note that the value for pH exceeds the effluent limitations listed in NPDES Permit No. MO-0002356. Insufficient sample was collected for TSS analysis.

If you have any questions concerning this matter, please advise.

Yours truly,

Charles L. Kroeger
